HOW TO READ THIS

Levels are usage signals adapted from Harvey's AI Fluency Framework ([harvey.ai/resources/reports/ai-fluency-framework](#)). They do not certify legal judgment, output quality, or completed verification. Grades compare this lawyer with active firm colleagues over the same window: percentile bands 70+ A, 40+ B, 15+ C, otherwise D; F means no recorded activity. Builder signals agent testing, not proven ownership or reuse. Catalyst is a firm designation, not detected from data.

PROMPT SCORING

Prompt craft and Verification scored on 47 legal-work prompts (model-judged, directional). Firm baseline: a 1,200-prompt sample across 35 colleagues.
